Focus Areas

■ Learn for life

- We educate our students holistically to develop in them 21st century competencies, values, an intrinsic motivation to learn and relevant skills for the future.

■ Embrace All Learners

- We honour our students' individual traits. We embrace a harmonious community of diverse learners as a strength and as an outcome.

■ Enhance Student Well-being

- We care for our students' mental, physical and social well-being in order to develop strong character, minds and bodies.

Student Leadership Development (SLD)

Our belief: The secondary school years are invaluable to developing character and values

Our goal: nurturing self-directed and inquisitive Dunman student leaders to lead change in communities

Leadership opportunities for all to be an empathetic leader

- **Students can look forward to**
 - mentoring others and be mentored through peer support programmes
 - initiating, organising and managing events
 - impacting not just the school but also the community
- **We will support your child's development by**
 - customised training on specific roles and responsibilities
 - multiple platforms to apply what they have learned to refine their leadership skills

The leadership model - Unlock your leadership potential at Dunman!

Dunman Student Leaders lead change in the community

- Student Councillors are encouraged to helm self-initiated projects that contribute back to both the school and community at large.
- Over the years, our student leaders have innovatively planned and executed innovative and meaningful projects that have allowed them to apply their leadership practices.

dmnstudentcouncil Last Monday, as part of #projectcare, our councillors gave out exam welfare packs to the dunmanites before morning assembly. In these exam welfare packs were items that would help Dunmanites in their preparation for the mid year examinations. The Councillors in charge also placed Go green tips in the exam welfare packs to encourage fellow dunmanites to be more conscious of their carbon footprint.

By having good home routines, you are setting your child up for life.

If you do your child's homework, he/she will lose the opportunity to learn.

Set up a conducive home environment for your child to learn effectively.

If you keep going to the teacher for daily updates, your child will miss the chance to learn about responsibility.

By letting your child forget, you
are helping him/her remember.

Respect the teacher's time, contact the
teacher during school operating hours only.

We Aspire. We Build. We Care
